Solid Waste Management Policy

Sahyadripur Municipal Corporation

1. Objectives

Achieve door-to-door collection in every ward, reach 95 percent source segregation by 2027, and keep uncollected garbage complaints below 4 per 10,000 residents per month.

2. Collection standards

Residential areas are served daily between 6 am and 11 am. Markets and commercial streets are served twice daily. A missed collection must be reported by the ward supervisor and cleared within 24 hours, which is the SLA for garbage complaints.

3. Festival and seasonal surge plan

Garbage volumes rise 20 to 30 percent during the Ganesh festival, Navratri and Diwali (September to November). Departments must add temporary vehicles and shifts from the first week of September, and pre-position additional bins in Old City, Market Yard and Gandhi Chowk.

4. Contractor performance

Collection contractors are evaluated monthly on missed pickups, response time to complaints and citizen ratings. Two consecutive months of missed-pickup rates above 3 percent trigger a penalty of 5 percent of the monthly payment. Work stoppages must be notified to the Commissioner within 24 hours and a fall-back crew deployed within 48 hours.

5. Penalties and enforcement

Open dumping and burning of waste are punishable by a fine. Ward officers carry out weekly inspections of vacant plots that have previously generated dumping complaints.
